

RHOMBUS INTERNATIONAL HOTELS GROUP
隆堡國際酒店集團

For Immediate Release

**Rhombus International Hotels Group -
Winner of 'Success Story 2008 Award'**

(Hong Kong, November 21, 2008) - Rhombus International Hotels Group based in North America with over 20 years of international experience within the hospitality industry was most recently awarded the 'Success Story 2008 Award' by the Hong Kong Trade Development Council and the Federation of Hong Kong Business Associations Worldwide.

This Award was to recognize an independent international company which had successfully established operations in Hong Kong, exhibiting growth and a promising future. With 2008 being an inaugural year for this Award; the awards committee had short-listed 23 companies, worldwide, and only three companies were selected to receive this prestigious award.

Rhombus Group was the only hotel company among the three winners. This award is a significant recognition following Rhombus' receipt of the 'Most Potential Hotel Development/Management Company' Award at the 2008 China Hotel Industry Leaders Summit earlier this year.

Since the opening of Hotel LKF by Rhombus in 2006, Rhombus' growth has been rapid and dynamic. Rhombus opened two additional hotels in early 2008 in Hong Kong, Hotel Panorama by Rhombus and Hotel Bonaparte by Rhombus. The company is also actively involved a development project in China, a 5-star all suites hotel in Chengdu, scheduled to open in 2011. Mr. Mak, Founder and CEO of Rhombus International Hotels Group, was delighted with the company's accomplishments, "These awards are not for me alone," he said, "It is the recognition of our collective team's hard work and achievement."
